HOW TO PLAY

Super Bowl squares is a 10x10 grid game (100 total squares) where players buy spots and win cash or prizes based on the last digit of each team's score at the end of each quarter. Participants select squares before numbers (0-9) are randomly assigned to rows and columns for each team.

...And THE BETTING WAS FIERCE @ \$5.00 / SQUARE !

Remarks:

Thanks to Han for organizing this amazing event. However, Han, Willard (and Robin) were drawing for the numbers with Victor standing very close by... and amazingly they are the winners!!

John who has lost everything already has the DOJ looking into this fishy Sashimi Bowl...
